

WICKWIRE FAMILY GUYANA PROJECT

With Wings for Humanity Foundation and Adventist World Aviation

June/July 2007

IN TRANSITION

We have spent the last two months in Berrien Springs Michigan attending Summer Institute of Missions with Adventist Frontier Missions. We met some amazing people, our training program was led by real missionaries that had left all behind to live in some of the most remote places on earth, they shared from the heart their joys and successes as well as heartaches and failures. We sat with fellow missionaries in training who are also following paths similar to our own, they too are saying goodbye to homes, family and friends to step out in faith to where God calls them; all over the world. We developed friendships with our neighbours and others who welcomed us into the community as if we had known them forever, we will miss them all but we have also been enriched by adding them to our lives.

The next few weeks will be packed with activity and last minute preparations as we anticipate our launching to Guyana in the first week of September.

Jud, Karen, Jacob and Zachary Wickwire

PROJECT UPDATE

- Flight operations have commenced in Guyana. Bill and Laura Labore have received final approval to operate Wings for Humanity in Region one. Laura has already made several flights to outlying villages.
- Laura will be flying the Minister of Health for Guyana into some of the villages to assist in assessing the need for vaccinations and other medical care.
- Container shipping. The container is nearly full, mostly with hospital equipment for the hospitals in Georgetown and Mabaruma, we need to load the last of our supplies and it will ship in a couple of weeks.

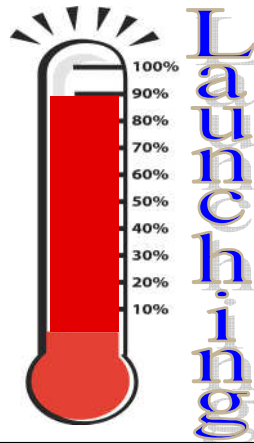

On final, Mabaruma airstrip

- The area just to the right of the runway threshold is the proposed location for the aircraft hanger at the Mabaruma airstrip, this will be the first time an aircraft has been based in the region.

HOW YOU CAN HELP

ONE TIME CONTRIBUTIONS

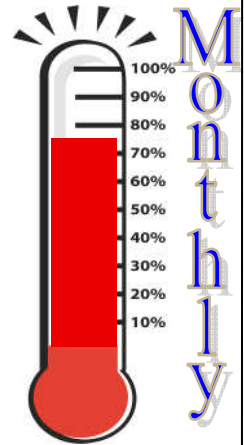

Our launching fund covers a variety of expenses that occur during the launch phase, it's a bit like starting a business: Airfare, missions training, vaccinations, advanced flight training, medical and dental equipment and supplies, shipping costs, construction tools, and outreach supplies. We have raised nearly \$55,000 in goods, services and monetary donations. Thank you.

MONTHLY SUPPORT

We are currently at approximately 75% of our monthly support goal of \$4,700, this is our greatest need. Donations on a monthly basis are the best for our budgeting but other regular intervals are fine too.

Monthly support can be provided by using the online credit card processing, Pay Pal or with post dated cheques.

Cheques should be made out to Wings for
Humanity Foundation

Contributions can also be made through the
Rutland SDA Church

NEEDS LIST

We have had some great items donated, thank you. Here are a few things that we can still use;

*Portable medical/dental equipment

* 15-20 HP outboard motor

* Two 21 speed mountain bikes

* Stihl chainsaws

* wood-working tools (cordless drill, circular saw, belt sander, saw blades, router bits, drill bits, clamps etc..

*6000 Watt Generator

The boat and motor are to be carried in the plane to provide reliable access on the rivers beyond the nearest airstrip.

PRAYER SUPPORT

- Please pray for Jacob and Zachary's school, classmates and teachers in Mabaruma.
- Please pray that we will meet key contacts that God has been working with in the villages.
- Please pray for the safe operation of the airplane.
- Pray for a reliable and reasonably priced source of aviation fuel for the airplane.
- Pray for the health and safety of each of our project team.

We were invited to the Glennie church near Mio Michigan in early July to share about mission aviation at the Adventist Church. The four of us made the 1 1/2 hour flight up in AWA's 182 to the NE corner of the state (we left Don and Trudy Starlin to make the 5+ hour drive). We enjoyed tremendous hospitality and had an enthusiastic response to our Sabbath presentation and then on Sunday morning we offered introductory rides to mission aviation at the airport. Jud flew for most of the morning and took almost 25 people up, for many of them it was their first time flying. Jacob and Zack have learned that they can make friends quickly however too soon it was time to leave and they had to say goodbye to their new friend and fellow cougar hunter, Jessica. They are looking forward to keeping in touch with her to share each others adventures.
